बिहार डीजीपी ने रिया पर फिर साधा निशाना

'औकात' वाले बयान पर दी सफाई

पटना, 20 अगस्त (एजेंसियां)। सुशांत सिंह राजपूत मामले में बिहार के पुलिस महानिदेशक गुप्तेश्वर पांडेय ने 'औकात' वाली टिप्पणी को लेकर एक बार फिर अभिनेत्री रिया चक्रवर्ती पर हमला बोला। उनका कहना है कि बिहार के मुख्यमंत्री पर टिप्पणी करने की उनकी औकात नहीं है और उन्हें यह नहीं भूलना चाहिए कि वे सुशांत सिंह मामले में आरोपी हैं। बिहार के डीजीपी ने कहा, 'औकात' का मतलब हैसियत भी होता है। बिहार के मुख्यमंत्री नीतीश कुमार पर टिप्पणी करने की रिया चक्रवर्ती की हैसियत नहीं है। उन्हें यह नहीं भूलना चाहिए कि वह सुशांत सिंह राजपूत मामले में एफआईआर में एक नामजद आरोपी हैं, यह जांच पहले मेरे अधीन थी और अब सीबीआई के पास है। गुप्तेश्वर पांडेय ने कहा, अगर कोई राजनीतिक नेता बिहार के मुख्यमंत्री पर टिप्पणी करता है, तो मैं इस पर टिप्पणी करने वाला कोई नहीं होता हूं। लेकिन अगर कोई आरोपी बिहार के मुख्यमंत्री पर कुछ भी बेबुनियाद टिप्पणी करता है तो यह आपत्तिजनक है। उन्हें कानूनी रूप से लड़ाई लड़नी चाहिए। इससे पहले बुधवार को उच्चतम न्यायालय के फैसले के बाद बिहार के डीजीपी ने एक सवाल के जवाब में कहा था कि बिहार के मुख्यमंत्री पर टिप्पणी करने की औकात रिया चक्रवर्ती की नहीं है। हालांकि बाद में उन्होंने अपने बयान पर माफी मांग ली थी। एक न्यूज चैनल से बातचीत में उन्होंने कहा था कि अगर उनकी बात से कोई तकलीफ हुई है तो वे क्षमा मांगते हैं।

Realty: Pandemic renews unexpected interest for senior living segment

GEETA NAIR
Pune, August 20

THE COVID-19 PANDEMIC and subsequent lockdown has provided an unexpected boost for realty companies in the senior living segment. This has emerged a growth segment in an otherwise depressed residential segment. India will be home to 17.3 crore senior citizens by 2026 and realty developers are looking at senior living with renewed interest.

Shashank Paranjape, MD, Paranjape Schemes, the oldest player in this segment with 2,000 homes in nine completed projects across Pune, Vadodara and Bengaluru under the Athashri brand, said they have seen a 50% rise in demand and enquiries have increased. As of now senior citizens are still under lockdown and advised to stay at home but he expects a spike in bookings from September 2020 onwards. Even those who had booked and cancelled are re-booking and those who were indecisive are now sure about making this move, said Paranjape.

There has been a fourfold increase in lead generation and three times jump in enquiries in the last four to five months, said Mohit Nirula, CEO, Columbia Pacific Communities, which has nine projects in India with 1,600 residential units. Every month since June, July and August we have done double of the pre-Covid level business, said Nirula. They were seeing faster conversion than before and sales has doubled, added Nirula.

According to Anarock Property Consultants, the top 12 senior living players have just 55 ongoing or completed projects across the country.

Anuj Puri, chairman, Anarock Property, said due to the rise of nuclear families, increased life expectancy and people living across geographies, 'independent seniors' are becoming a new demography. "Such seniors do not settle for traditional old-age homes as they prefer and can afford autonomy and the company of age peers in well-equipped retirement communities. A recurring theme of this pandemic has been seniors living alone, struggling for basics, managing without house help and anxious about existing and potential medical issues. The need for homes in a setting where these factors are taken care of is now undeniable," said Puri. Covid-19 may reshape the future of the senior living segment in India, with demand for such homes set to zoom amid the present uncertainties, added Puri.

One in four Indians could have been infected with Covid: Thyrocare head

SAVIO SHETTY
Mumbai, August 20

AT LEAST ONE in four people in India may have been infected with the coronavirus — a much higher number than official government figures suggest, the head of leading private laboratory says.

Dr. A. Velumani said an analysis of 270,000 antibody tests conducted by his company Thyrocare across India showed the presence of antibodies in an average of 26% of the people, indicating they had already been exposed to the coronavirus.

"This is a much higher percentage than we had expected. The presence of antibodies is uniform across all age groups, including children," Velumani told *Reuters*. Thyrocare's findings are in line with government surveys done in Indian cities such as Mumbai, which showed that 57% of the population in its crowded slum areas had been exposed to the coronavirus.

The Thyrocare survey covers paid and tested patients, covering 600 cities in India for the last seven weeks, Velumani added. If the current trend continues, the percentage of India's population having antibodies may reach 40% before the end of December.

India currently has a total of 2.8 million cases, third only behind Brazil and the United States globally, but active patients are less than a fourth of its total caseload, according to health ministry figures.

On Wednesday, the world's second-most populous country reported more than 64,000 new cases of the novel coronavirus in a single day, with more than 1,000 deaths in the same period.

Realty: Pandemic renews unexpected interest for senior living segment

GEETA NAIR
Pune, August 20

THE COVID-19 PANDEMIC and subsequent lockdown has provided an unexpected boost for realty companies in the senior living segment. This has emerged a growth segment in an otherwise depressed residential segment. India will be home to 17.3 crore senior citizens by 2026 and realty developers are looking at senior living with renewed interest.

Shashank Paranjape, MD, Paranjape Schemes, the oldest player in this segment with 2,000 homes in nine completed projects across Pune, Vadodara and Bengaluru under the Athashri brand, said they have seen a 50% rise in demand and enquiries have increased. As of now senior citizens are still under lockdown and advised to stay at home but he expects a spike in bookings from September 2020 onwards. Even those who had booked and cancelled are re-booking and those who were indecisive are now sure about making this move, said Paranjape.

There has been a fourfold increase in lead generation and three times jump in enquiries in the last four to five months, said Mohit Nirula, CEO, Columbia Pacific Communities, which has nine projects in India with 1,600 residential units. Every month since June, July and August we have done double of the pre-Covid level business, said Nirula. They were seeing faster conversion than before and sales has doubled, added Nirula.

According to Anarock Property Consultants, the top 12 senior living players have just 55 ongoing or completed projects across the country.

Anuj Puri, chairman, Anarock Property, said due to the rise of nuclear families, increased life expectancy and people living across geographies, 'independent seniors' are becoming a new demography. "Such seniors do not settle for traditional old-age homes as they prefer and can afford autonomy and the company of age peers in well-equipped retirement communities. A recurring theme of this pandemic has been seniors living alone, struggling for basics, managing without house help and anxious about existing and potential medical issues. The need for homes in a setting where these factors are taken care of is now undeniable," said Puri. Covid-19 may reshape the future of the senior living segment in India, with demand for such homes set to zoom amid the present uncertainties, added Puri.

One in four Indians could have been infected with Covid: Thyrocare head

SAVIO SHETTY
Mumbai, August 20

AT LEAST ONE in four people in India may have been infected with the coronavirus - a much higher number than official government figures suggest, the head of leading private laboratory says.

Dr. A. Velumani said an analysis of 270,000 antibody tests conducted by his company Thyrocare across India showed the presence of antibodies in an average of 26% of the people, indicating they had already been exposed to the coronavirus.

"This is a much higher percentage than we had expected. The presence of antibodies is uniform across all age groups, including children," Velumani told *Reuters*. Thyrocare's findings are in line with government surveys done in Indian cities such as Mumbai, which showed that 57% of the population in its crowded slum areas had been exposed to the coronavirus.

The Thyrocare survey covers paid and tested patients, covering 600 cities in India for the last seven weeks, Velumani added. If the current trend continues, the percentage of India's population having antibodies may reach 40% before the end of December.

India currently has a total of 2.8 million cases, third only behind Brazil and the United States globally, but active patients are less than a fourth of its total caseload, according to health ministry figures.

On Wednesday, the world's second-most populous country reported more than 64,000 new cases of the novel coronavirus in a single day, with more than 1,000 deaths in the same period.

Realty: Pandemic renews unexpected interest for senior living segment

GEETA NAIR
Pune, August 20

THE COVID-19 PANDEMIC and subsequent lockdown has provided an unexpected boost for realty companies in the senior living segment. This has emerged a growth segment in an otherwise depressed residential segment. India will be home to 17.3 crore senior citizens by 2026 and realty developers are looking at senior living with renewed interest.

Shashank Paranjape, MD, Paranjape Schemes, the oldest player in this segment with 2,000 homes in nine completed projects across Pune, Vadodara and Bengaluru under the Athashri brand, said they have seen a 50% rise in demand and enquiries have increased. As of now senior citizens are still under lockdown and advised to stay at home but he expects a spike in bookings from September 2020 onwards. Even those who had booked and cancelled are re-booking and those who were indecisive are now sure about making this move, said Paranjape.

There has been a fourfold increase in lead generation and three times jump in enquiries in the last four to five months, said Mohit Nirula, CEO, Columbia Pacific Communities, which has nine projects in India with 1,600 residential units. Every month since June, July and August we have done double of the pre-Covid level business, said Nirula. They were seeing faster conversion than before and sales has doubled, added Nirula.

According to Anarock Property Consultants, the top 12 senior living players have just 55 ongoing or completed projects across the country.

Anuj Puri, chairman, Anarock Property, said due to the rise of nuclear families, increased life expectancy and people living across geographies, 'independent seniors' are becoming a new demography. "Such seniors do not settle for traditional old-age homes as they prefer and can afford autonomy and the company of age peers in well-equipped retirement communities. A recurring theme of this pandemic has been seniors living alone, struggling for basics, managing without house help and anxious about existing and potential medical issues. The need for homes in a setting where these factors are taken care of is now undeniable," said Puri. Covid-19 may reshape the future of the senior living segment in India, with demand for such homes set to zoom amid the present uncertainties, added Puri.

One in four Indians could have been infected with Covid: Thyrocare head

SAVIO SHETTY
Mumbai, August 20

AT LEAST ONE in four people in India may have been infected with the coronavirus - a much higher number than official government figures suggest, the head of leading private laboratory says.

Dr. A. Velumani said an analysis of 270,000 antibody tests conducted by his company Thyrocare across India showed the presence of antibodies in an average of 26% of the people, indicating they had already been exposed to the coronavirus.

"This is a much higher percentage than we had expected. The presence of antibodies is uniform across all age groups, including children," Velumani told *Reuters*. Thyrocare's findings are in line with government surveys done in Indian cities such as Mumbai, which showed that 57% of the population in its crowded slum areas had been exposed to the coronavirus.

The Thyrocare survey covers paid and tested patients, covering 600 cities in India for the last seven weeks, Velumani added. If the current trend continues, the percentage of India's population having antibodies may reach 40% before the end of December.

India currently has a total of 2.8 million cases, third only behind Brazil and the United States globally, but active patients are less than a fourth of its total caseload, according to health ministry figures.

On Wednesday, the world's second-most populous country reported more than 64,000 new cases of the novel coronavirus in a single day, with more than 1,000 deaths in the same period.

Realty: Pandemic renews unexpected interest for senior living segment

GEETA NAIR
Pune, August 20

THE COVID-19 PANDEMIC and subsequent lockdown has provided an unexpected boost for realty companies in the senior living segment. This has emerged a growth segment in an otherwise depressed residential segment. India will be home to 17.3 crore senior citizens by 2026 and realty developers are looking at senior living with renewed interest.

Shashank Paranjape, MD, Paranjape Schemes, the oldest player in this segment with 2,000 homes in nine completed projects across Pune, Vadodara and Bengaluru under the Athashri brand, said they have seen a 50% rise in demand and enquiries have increased. As of now senior citizens are still under lockdown and advised to stay at home but he expects a spike in bookings from September 2020 onwards. Even those who had booked and cancelled are re-booking and those who were indecisive are now sure about making this move, said Paranjape.

There has been a fourfold increase in lead generation and three times jump in enquiries in the last four to five months, said Mohit Nirula, CEO, Columbia Pacific Communities, which has nine projects in India with 1,600 residential units. Every month since June, July and August we have done double of the pre-Covid level business, said Nirula. They were seeing faster conversion than before and sales has doubled, added Nirula.

According to Anarock Property Consultants, the top 12 senior living players have just 55 ongoing or completed projects across the country.

Anuj Puri, chairman, Anarock Property, said due to the rise of nuclear families, increased life expectancy and people living across geographies, 'independent seniors' are becoming a new demography. "Such seniors do not settle for traditional old-age homes as they prefer and can afford autonomy and the company of age peers in well-equipped retirement communities. A recurring theme of this pandemic has been seniors living alone, struggling for basics, managing without house help and anxious about existing and potential medical issues. The need for homes in a setting where these factors are taken care of is now undeniable," said Puri. Covid-19 may reshape the future of the senior living segment in India, with demand for such homes set to zoom amid the present uncertainties, added Puri.

One in four Indians could have been infected with Covid: Thyrocare head

SAVIO SHETTY
Mumbai, August 20

AT LEAST ONE in four people in India may have been infected with the coronavirus - a much higher number than official government figures suggest, the head of leading private laboratory says.

Dr. A. Velumani said an analysis of 270,000 antibody tests conducted by his company Thyrocare across India showed the presence of antibodies in an average of 26% of the people, indicating they had already been exposed to the coronavirus.

"This is a much higher percentage than we had expected. The presence of antibodies is uniform across all age groups, including children," Velumani told *Reuters*. Thyrocare's findings are in line with government surveys done in Indian cities such as Mumbai, which showed that 57% of the population in its crowded slum areas had been exposed to the coronavirus.

The Thyrocare survey covers paid and tested patients, covering 600 cities in India for the last seven weeks, Velumani added. If the current trend continues, the percentage of India's population having antibodies may reach 40% before the end of December.

India currently has a total of 2.8 million cases, third only behind Brazil and the United States globally, but active patients are less than a fourth of its total caseload, according to health ministry figures.

On Wednesday, the world's second-most populous country reported more than 64,000 new cases of the novel coronavirus in a single day, with more than 1,000 deaths in the same period.

Realty: Pandemic renews unexpected interest for senior living segment

GEETA NAIR
Pune, August 20

THE COVID-19 PANDEMIC and subsequent lockdown has provided an unexpected boost for realty companies in the senior living segment. This has emerged a growth segment in an otherwise depressed residential segment. India will be home to 17.3 crore senior citizens by 2026 and realty developers are looking at senior living with renewed interest.

Shashank Paranjape, MD, Paranjape Schemes, the oldest player in this segment with 2,000 homes in nine completed projects across Pune, Vadodara and Bengaluru under the Athashri brand, said they have seen a 50% rise in demand and enquiries have increased. As of now senior citizens are still under lockdown and advised to stay at home but he expects a spike in bookings from September 2020 onwards. Even those who had booked and cancelled are re-booking and those who were indecisive are now sure about making this move, said Paranjape.

There has been a fourfold increase in lead generation and three times jump in enquiries in the last four to five months, said Mohit Nirula, CEO, Columbia Pacific Communities, which has nine projects in India with 1,600 residential units. Every month since June, July and August we have done double of the pre-Covid level business, said Nirula. They were seeing faster conversion than before and sales has doubled, added Nirula.

According to Anarock Property Consultants, the top 12 senior living players have just 55 ongoing or completed projects across the country.

Anuj Puri, chairman, Anarock Property, said due to the rise of nuclear families, increased life expectancy and people living across geographies, 'independent seniors' are becoming a new demography. "Such seniors do not settle for traditional old-age homes as they prefer and can afford autonomy and the company of age peers in well-equipped retirement communities. A recurring theme of this pandemic has been seniors living alone, struggling for basics, managing without house help and anxious about existing and potential medical issues. The need for homes in a setting where these factors are taken care of is now undeniable," said Puri. Covid-19 may reshape the future of the senior living segment in India, with demand for such homes set to zoom amid the present uncertainties, added Puri.

One in four Indians could have been infected with Covid: Thyrocare head

SAVIO SHETTY
Mumbai, August 20

AT LEAST ONE in four people in India may have been infected with the coronavirus - a much higher number than official government figures suggest, the head of leading private laboratory says.

Dr. A. Velumani said an analysis of 270,000 antibody tests conducted by his company Thyrocare across India showed the presence of antibodies in an average of 26% of the people, indicating they had already been exposed to the coronavirus.

"This is a much higher percentage than we had expected. The presence of antibodies is uniform across all age groups, including children," Velumani told *Reuters*. Thyrocare's findings are in line with government surveys done in Indian cities such as Mumbai, which showed that 57% of the population in its crowded slum areas had been exposed to the coronavirus.

The Thyrocare survey covers paid and tested patients, covering 600 cities in India for the last seven weeks, Velumani added. If the current trend continues, the percentage of India's population having antibodies may reach 40% before the end of December.

India currently has a total of 2.8 million cases, third only behind Brazil and the United States globally, but active patients are less than a fourth of its total caseload, according to health ministry figures.

On Wednesday, the world's second-most populous country reported more than 64,000 new cases of the novel coronavirus in a single day, with more than 1,000 deaths in the same period.

Realty: Pandemic renews unexpected interest for senior living segment

GEETA NAIR
Pune, August 20

THE COVID-19 PANDEMIC and subsequent lockdown has provided an unexpected boost for realty companies in the senior living segment. This has emerged a growth segment in an otherwise depressed residential segment. India will be home to 17.3 crore senior citizens by 2026 and realty developers are looking at senior living with renewed interest.

Shashank Paranjape, MD, Paranjape Schemes, the oldest player in this segment with 2,000 homes in nine completed projects across Pune, Vadodara and Bengaluru under the Athashri brand, said they have seen a 50% rise in demand and enquiries have increased. As of now senior citizens are still under lockdown and advised to stay at home but he expects a spike in bookings from September 2020 onwards. Even those who had booked and cancelled are re-booking and those who were indecisive are now sure about making this move, said Paranjape.

There has been a fourfold increase in lead generation and three times jump in enquiries in the last four to five months, said Mohit Nirula, CEO, Columbia Pacific Communities, which has nine projects in India with 1,600 residential units. Every month since June, July and August we have done double of the pre-Covid level business, said Nirula. They were seeing faster conversion than before and sales has doubled, added Nirula.

According to Anarock Property Consultants, the top 12 senior living players have just 55 ongoing or completed projects across the country.

Anuj Puri, chairman, Anarock Property, said due to the rise of nuclear families, increased life expectancy and people living across geographies, 'independent seniors' are becoming a new demography. "Such seniors do not settle for traditional old-age homes as they prefer and can afford autonomy and the company of age peers in well-equipped retirement communities. A recurring theme of this pandemic has been seniors living alone, struggling for basics, managing without house help and anxious about existing and potential medical issues. The need for homes in a setting where these factors are taken care of is now undeniable," said Puri. Covid-19 may reshape the future of the senior living segment in India, with demand for such homes set to zoom amid the present uncertainties, added Puri.

One in four Indians could have been infected with Covid: Thyrocare head

SAVIO SHETTY
Mumbai, August 20

AT LEAST ONE in four people in India may have been infected with the coronavirus - a much higher number than official government figures suggest, the head of leading private laboratory says.

Dr. A. Velumani said an analysis of 270,000 antibody tests conducted by his company Thyrocare across India showed the presence of antibodies in an average of 26% of the people, indicating they had already been exposed to the coronavirus.

"This is a much higher percentage than we had expected. The presence of antibodies is uniform across all age groups, including children," Velumani told *Reuters*. Thyrocare's findings are in line with government surveys done in Indian cities such as Mumbai, which showed that 57% of the population in its crowded slum areas had been exposed to the coronavirus.

The Thyrocare survey covers paid and tested patients, covering 600 cities in India for the last seven weeks, Velumani added. If the current trend continues, the percentage of India's population having antibodies may reach 40% before the end of December.

India currently has a total of 2.8 million cases, third only behind Brazil and the United States globally, but active patients are less than a fourth of its total caseload, according to health ministry figures.

On Wednesday, the world's second-most populous country reported more than 64,000 new cases of the novel coronavirus in a single day, with more than 1,000 deaths in the same period.
